

# Red Man

Kenna

Voice too loud to hear  
Laugh too hard to feel  
When I fall asleep  
I'm a puppet cutting strings

When your eyes  
Open large and wide  
In a different light  
Eyes open for the sun  
In a different time

Red man's got you crazy, sad, sad  
Life is not a daisy, sad, sad  
Come on in and save me, come on, come on  
I don't mean to bring you down  
I don't mean to bring you down

Legs too weak to walk  
We live to crawl  
Oh, as I fall on my knees  
I'm a puppet cutting strings

When your eyes  
Open large and wide  
In a different light  
Eyes open for the sun  
In a different time

Red man's got you crazy, sad, sad  
Life is not a daisy, sad, sad  
Come on in and save me, come on, come on  
I don't mean to bring you down  
I don't mean to bring you down

Love lift me high  
Heal me tonight  
We're gonna try and make it

Love lift me high  
Give me the sign  
We're gonna live forever

Love lift me high  
Heal me tonight, yeah  
Love lift me high  
Heal me tonight

Red man's got you crazy  
Life is not a daisy  
Come on in and save me, come on  
I don't mean to bring you down  
I don't mean to bring you down
