Voice too loud to hear
Laugh too hard to feel
When I fall asleep
I'm a puppet cutting strings

When your eyes Open large and wide In a different light Eyes open for the sun In a different time

Red man's got you crazy, sad, sad Life is not a daisy, sad, sad Come on in and save me, come on, come on I don't mean to bring you down I don't mean to bring you down

Legs too weak to walk
We live to crawl
Oh, as I fall on my knees
I'm a puppet cutting strings

When your eyes Open large and wide In a different light Eyes open for the sun In a different time

Red man's got you crazy, sad, sad Life is not a daisy, sad, sad Come on in and save me, come on, come on I don't mean to bring you down I don't mean to bring you down

Love lift me high
Heal me tonight
We're gonna try and make it

Love lift me high Give me the sign We're gonna live forever

Love lift me high Heal me tonight, yeah Love lift me high Heal me tonight

Red man's got you crazy
Life is not a daisy
Come on in and save me, come on
I don't mean to bring you down
I don't mean to bring you down
