

War In Me

Kenna

You call, call, call on me
I suffocate in all of it
But call, call on me
It's hard to breathe
I suffocate and choke on it

It's bittersweet for me to know
The fever's taking over
The status of my fear soars
I'm waging a war, a war in me
The war in me is wailing
I, I still believe

To tryin' all this is short of bliss
To kill the cycle that I've fed
The labyrinth in me
Is every sin, every game
And all have lain

It's bittersweet for me to know
The fever taking over
The status of my fear soars
I'm waging a war, a war in me
A war in me, a war in me, blairing
I, I believe, I believe

Colors bleed in a war
War for me, a war for me
A war for me is blaring
I, I, I, I, I, I can see
Heaven sees for me

Whoa, whoa, whoa

Here it's bittersweet for me to know
Fever taking over
The status of my fear soars
I'm waging a war, war in me
A war in me, a war in me is blaring
I, I believe, I believe

There's a war, war for me
A war for me, a war for me is blaring
I, I, I, I, I, I can see
Heaven steers

Oh, it's bittersweet for me to know
Fever taking over
The status of my fear soars
In a war, a war in me
A war in me, a war in me, blaring
I, I believe, I believe

There's a war, a war for me
A war for me, a war for me, blaring
I, I believe, I believe, yeah
There's a war, a war in me

A war in me, blaring, war in me
A war in me, blaring, a war in me
