You call, call, call on me
I suffocate in all of it
But call, call on me
It's hard to breathe
I suffocate and choke on it

It's bittersweet for me to know
The fever's taking over
The status of my fear soars
I'm waging a war, a war in me
The war in me is wailing
I, I still believe

To tryin' all this is short of bliss To kill the cycle that I've fed The labyrinth in me Is every sin, every game And all have lain

It's bittersweet for me to know
The fever taking over
The status of my fear soars
I'm waging a war, a war in me
A war in me, a war in me, blairing
I, I believe, I believe

Colors bleed in a war
War for me, a war for me
A war for me is blaring
I, I, I, I, I can see
Heaven sees for me

Whoa, whoa, whoa

Here it's bittersweet for me to know Fever taking over The status of my fear soars I'm waging a war, war in me A war in me, a war in me is blaring I, I believe, I believe

There's a war, war for me
A war for me, a war for me is blaring
I, I, I, I, I can see
Heaven steers

Oh, it's bittersweet for me to know Fever taking over The status of my fear soars In a war, a war in me A war in me, a war in me, blaring I, I believe, I believe

There's a war, a war for me
A war for me, a war for me, blaring
I, I believe, I believe, yeah
There's a war, a war in me

A war in me, blaring, war in me A war in me, blaring, a war in me
