

# Ain't That Love

Kenny Chesney

I will always remember  
The first time that we met  
And the first time that I kissed your lips  
Is a thing I won't forget  
The special way you held me  
Is the way you hold me still  
And I knew right then that you loved me  
And I know you always will

Ain't that love  
Ain't that how it's supposed to be  
When two hearts come together as one  
Just like you and me  
Ain't that love  
Shining in your eyes  
Heaven sent from up above  
Ain't that love

My grandma and grandpa  
My momma and my dad  
Didn't have a lot of things  
But love is what they had  
Their love kept them together  
Through the many years  
Though life was hard  
They shared it all  
Through the laughter and the tears

Ain't that love  
Ain't that how it's supposed to be  
When two hearts come together as one  
Just like you and me  
Ain't that love  
Shining in your eyes  
Heaven sent from up above  
Ain't that love

Baby you're the sunshine  
That brightens up my day  
And I will always stand by you  
Darlin' come what may  
And I will always love you  
To have and to hold  
And I'll keep my every promise to you  
With this band of gold

Ain't that love  
Ain't that how it's supposed to be  
When two hearts come together as one  
Just like you and me  
Ain't that love  
Shining in your eyes  
Heaven sent from up above  
Ain't that love

Heaven sent from up above  
Ain't that love
