Don't Happen Twice

Kenny Chesney

I haven't seen you in forever Oh you haven't changed a bit You didn't think that I would remember How could I forget

We sang Bobby McGhee on the hood of my car Made a wish on every star In that clear September sky One bottle of wine and two Dixie cups 3 am I fell in love For the first time in my life Oh that's something that just don't happen twice

To this day I still taste that first kiss How I prayed it wouldn't end In a way, seeing you like this I guess it never really did

We sang Bobby McGhee on the hood of my car Made a wish on every star In that clear september sky One bottle of wine and two Dixie cups 3 am I fell in love For the first time in my life That's something that just don't happen twice

One bottle of wine and two Dixie cups 3 am I fell in love For the first time in my life Oh that's something, baby that's something Oh that's something That just don't happen twice

Oh yeah

We sang Bobby McGhee on the hood of my car Made a wish on every star One bottle of wine and two Dixie cups Yeah we fell in love
