

Fall in Love

Kenny Chesney

A Little country church on a 2-lane road
A Bride and a Groom, comin' out the door
White lace dress, and a red boquet
"Just Married" written on a blue chevrolet

Don't that make you want to fall in love?
Don't that look like a picture of us?
A match made in heaven, if there ever was
Don't that make you wanna fall?
That just makes me wanna give you my heart
Ever forever needs a place to start
Gotta be a sign from up above
Don't that make you wanna fall in love

Old folks sittin' in a front porch swing
Still holdin' hands like they were 16
50 good years they were a lovers dream
Darlin' that could be you and me

Don't that make you want to fall in love?
Don't that look like a picture of us?
A match made in heaven, if there ever was
Don't that make you wanna fall?
That just makes me wanna give you my heart
Ever forever needs a place to start
Gotta be a sign from up above
Don't that make you wanna fall in love

Well, now don't that make you want to fall in love?
