

# Out Last Night

Kenny Chesney

We went out last night  
Like we swore we wouldn't do  
Drank too much beer last night  
A lot more than we wanted to

There were girls from Argentina and Arkansas  
Maine, Alabama and Panama  
All mixed together and having a ball

Yeah, we went out last night  
One thing started leading to another  
Out last night  
Hittin' on everybody and their mother

There were two karaoke girls drunk on a dare  
Singing "I Got You Babe" by Sonny and Cher  
Yeah, life was good everywhere  
We went out last night

Well you know I'm a music man  
I grew up in east Tennessee  
Last night I was everything  
When I got a few drinks in me

I was a doctor, a lawyer, a senator's son  
Brad Pitt's brother and a man on the run  
Anything I thought would get the job done

Yeah, we went out last night  
One thing started leading to another  
Out last night  
Hittin' on everybody and their mother

There were people doing body shots up on the bar  
Jimmy in a fist fight out by the car  
Everybody was some kind of star  
When we went out last night

Well the fact that I'm still breathing  
Means that I must have survived  
And that I lived to go out with my friends again tonight

Oh, We went out last night  
One thing started leading to another  
Out last night  
Everybody started loving on each other

They were dancing on the tables  
And howling at the moon  
Pairing off together and pretty soon  
There was not a sole in sight  
When we went out last night
