

You Had Me from Hello

Kenny Chesney

One word, that's all you said
Something in your voice called me, turned my head
Your smile, just captured me
You were in my future as far as I could see
And I don't know how it happens, but it happens still
You asked me if I love you, if I always will

Well you had me from hello
I felt love start to grow
The moment I looked into your eyes you won me
It was over from the start you completely stole my heart
And now you won't let go
I never even had a chance you know
You had me from hello

Inside I built a wall
So high around my heart, I thought I'd never fall
One touch, you brought it down
The bricks of my defenses scattered on the ground
And I swore to me I wasn't going to love again
The last time was the last time I'd let someone in

But you had me from hello
I felt love start to grow
The moment I looked into your eyes you won me
It was over from the start you completely stole my heart
And now you won't let go
I never even had a chance you know
You had me from hello

That's all you said
Something in your voice calls me, turns my head
You had me from hello
You had me from hello
Girl, I've loved you from hello
