

# You Had Me from Hello

Kenny Chesney

One word, that's all you said  
Something in your voice called me, turned my head  
Your smile, just captured me  
You were in my future as far as I could see  
And I don't know how it happens, but it happens still  
You asked me if I love you, if I always will

Well you had me from hello  
I felt love start to grow  
The moment I looked into your eyes you won me  
It was over from the start you completely stole my heart  
And now you won't let go  
I never even had a chance you know  
You had me from hello

Inside I built a wall  
So high around my heart, I thought I'd never fall  
One touch, you brought it down  
The bricks of my defenses scattered on the ground  
And I swore to me I wasn't going to love again  
The last time was the last time I'd let someone in

But you had me from hello  
I felt love start to grow  
The moment I looked into your eyes you won me  
It was over from the start you completely stole my heart  
And now you won't let go  
I never even had a chance you know  
You had me from hello

That's all you said  
Something in your voice calls me, turns my head  
You had me from hello  
You had me from hello  
Girl, I've loved you from hello
