

Right Down To It

Kenny Lattimore

Listen baby, if I drive you crazy
Ain't nothing personal about it, girl, I'm just that way
See baby, sometimes I'm shaky
But don't confuse it, don't you lose it 'cause it be that way

Oh, here lately I've been thinking, just a thinking
Thinking what you think of your man
Somebody's telling you I don't care about you
Ain't a single word about it true

'Cause when it gets right down to it
I'm in love with you and baby, you should know it by now
When it gets right down to it
I wanna get with you and girl, I need your loving right now

Frankly I'm not that crazy, I know a good thing when I got it
I'm your number one fan, lady, don't let them play me
Let it go through one ear out the other
Baby, stand by your man

Oh baby, don't be influenced
By your girlfriends jocking me on the side
See they can tell that it's good
They want a piece of it, snatch me at the bat of an eye

'Cause when it gets right down to it
I'm in love with you and baby, you should know it by now
When it gets right down to it
I wanna get with you and girl, I need your loving right now

'Cause when it gets right down to it
I'm in love with you and baby, you should know it by now
When it gets right down to it
I wanna get with you and girl, I need your lovin' right now

When you love what you touch and you touch what you want
Then you want what you kiss and you kiss what you miss
When you dis what you want and you want what you dis
Then you miss what you love and you love what you miss
Oh baby

'Cause when it gets right down to it
I'm in love with you and baby, you should know it by now
When it gets right down to it
I wanna get with you and girl, I need your loving right now

'Cause when it gets right down to it
I'm in love with you and baby, you should know it by now
When it gets right down to it
I wanna get with you and girl, I need your loving right now
