

# Where Did Love Go

Kenny Lattimore

Where did love go?  
How could the feeling be gone?  
Where did love go?  
Tell me just where we went wrong  
Come let's make up

Where did our love go?  
How could we just let it fade away?  
To me it's all a mystery  
That's left my heart in so much pain

Can't stop looking at your picture  
Reminiscing on the way it used to be  
Still holding on to yesterday  
With thoughts I can't seem to put away

Where did love go?  
How could the feeling be gone?  
Where did love go?  
Tell me just where we went wrong  
Come let's make up

Tell me can you remember  
All the time we shared so romantically?  
Could someone else be loving you  
And erasing your memory?

I don't want to get over you  
If I did, it wouldn't be tonight  
If loving you is all I can do  
I wanna do that for the rest of my life

Where did love go?  
How could the feeling be gone?  
Where did love go?  
Tell me just where we went wrong  
Come let's make up

How could we let it all slip away?  
All the dreams that we shared  
Seems just like yesterday

Ooh girl, we had it all  
But now you say the feeling's gone  
What I wouldn't do to have you home

Where did love go?  
How could the feeling be gone?  
Where did love go?  
Tell me just where we went wrong

Where did love go?  
How could the feeling be gone?  
Where did love go?  
Tell me just where we went wrong

Where did love go?

How could the feeling be gone?  
Where did love go?  
Tell me just where we went wrong  
Come let's make up
