

All the Pretty Little Ponies

Kenny Loggins

Hush a bye
Don't you cry
Go to sleep my little baby
When you wake
You shall have
All the pretty little ponies

In your bed
Momma said
Baby's riding off to dreamland
One by one
They've begun
Dance and prance for little baby
Blacks and bays, dapples and greys
Running in the night
When you wake
You shall have
All the pretty little ponies

Can you see the little ponies
Dance before your eyes
All the pretty little ponies
Will be there when you arise

Can you see the little ponies
Shining before your eyes
All the pretty little ponies
Gonna be there when you arise

Hush a bye
Don't you cry
Go to sleep my little baby
When you wake
You shall have
All the pretty little ponies
All the pretty little ponies
All the pretty little ponies
