

# If You Never Been There

Kenny Loggins

What you want  
Baby you know I've tried  
Girl it's been one hell of a ride  
Getting' over you  
It'd be so much easier for you  
If I could just make believe I've made it on through  
Fast as you want me to  
By the way things go  
Is beyond your control

Got it all figured out  
From your side of the line  
You can tell your story  
But you can't tell mine  
You think you seen it all  
But you ain't been no where  
Girl if you never been there

There's a fire  
That'll humble the strongest man  
That will shatter all his best laid plans  
When it all comes down you learn  
Who we are 'n what we come to know  
Darlin' is only where we're willin' to go  
I'm goin' even though  
It's become crystal clear  
You'll never follow me there

Got it all figured out  
From your side of the line  
You can tell your story  
But you can't tell mine  
You ask me to say how I feel  
But you don't wanna know  
And you can't really know

You can say what you want  
But there's one thing for sure  
You'll be standin' outside  
Till you've been through that door  
You think you've seen it all  
But you ain't been no where  
Girl if you never been there

Lord  
Hear me calling  
Help me to understand  
Lord  
I'm free fallin' on down  
Into your hands

You ask me to say how I feel  
But you don't wanna know  
And you can't really know

You think you've seen it all  
But you ain't been no where

Girl if you never been there
