

Love's Got Nothin' to Prove

Kenny Loggins

Love isn't just
Somethin' to try
No "act" of love
Can satisfy
You've got to believe
It's live or die
To ask yourself the question
"How can love survive?"

And if we try
And it don't work out
Like so many people do
It's just a fact of life
No we ain't in charge
There ain't nothin' that's wrong with me
Ain't nothin' that's wrong with you

Love's got Nothin' to Prove
It's not up to you
Two souls come into a world made
Of time and space
Searchin' for the truth
With nothin' but love to prove
And find it in the gift of
A moment of grace

Your heart is broken
'Cause your love was untrue
You're asking God
"Oh why you?"

Oh was it crazy
Givin' all of you?
You ask yourself the question
"What more could I do?"

There's always somebody to tell you how
You were a fool who jus' believed too much
But in the end the fool, you'll come to know
Is not the one who loved
