## Love's Got Nothin' to Prove

## **Kenny Loggins**

Love isn't just Somethin' to try No "act" of love Can satisfy You've got to believe It's live or die To ask yourself the question "How can love survive?"

And if we try And it don't work out Like so many people do It's just a fact of life No we ain't in charge There ain't nothin' that's wrong with me Ain't nothin' that's wrong with you

Love's got Nothin' to Prove It's not up to you Two souls come into a world made Of time and space Searchin' for the truth With nothin' but love to prove And find it in the gift of A moment of grace

Your heart is broken 'Cause your love was untrue You're asking God "Oh why you?"

Oh was it crazy Givin' all of you? You ask yourself the question "What more could I do?"

There's always somebody to tell you how You were a fool who jus' believed too much But in the end the fool, you'll come to know Is not the one who loved
