

No Doubt About Love

Kenny Loggins

Oh, I don't know just what to make of this world
My friends are wondering too
Oh, I got some doubt about the state of this world
What we're gonna do

All I know is you
And the feeling I feel is the truth
I'm in love with you
And I don't need to figure it out

All I know now is that
I got no doubt about love, oh
Hesitation is out
Now that I got not doubt about love

You're never sure about your place in this world
Or what you need to survive
Some people say that
What it takes in this world is constant compromise

But your love is so fine
And I must have done something so right
To be in love with you
Ain't giving up what I got, oh

All I know now is that
I got no doubt about love, oh
Hesitation is out
Now that I got not doubt about love

Could it be certainty has taken a hold of my life
Imagine my surprise, oh
No doubt big love has arrived
Every day I thank God I'm alive

Oh, all I know now is that
I got no doubt about love, oh
Hesitation is out
Now that I got not doubt about love

All I know now
I got no doubt about love, oh
Hesitation is out
Now that I got not doubt about love
