That's When I Find You

Kenny Loggins

Just when I got nothin' left
That's when I find you
Beaten down, besieged, bereft
That's when I find you
On shaky ground and stripped of pride
That's when I find you
Only emptiness inside
That's when I find you

When everything I knew is wrong
"N everything I had is gone
When I know I can't go on
That's when I find you

Take me down to the river of tears
That's when I find you
Gonna wash me in the water and drown my fears
That's when I find you
Done runnin' away, done turnin' around
That's when I find you
Cause pain and trouble is sacred ground
That's when I find you

When everything I knew is wrong
"N everything I had is gone
When I know I can't go on
That's when I find you

Every trial, every tear
Brings my life closer into view
In the center of the truth
That's when I find you
It hurts so much
It hurts so much
To feel so all alone
But I ain't alone
I'm just goin' home
"N that's when I find you

Got nothin' to hide, got nothin' to lose
That's when I find you
'N the worst kind of karma is comin' on through
That's when I find you
When I've taken more than I can take
That's when I find you
I say no 'n no 'n no…..till the damn breaks

Every trial, every tear
Brings my life closer into view
In the center of the truth
That's when I find you
