

Underneath The Same Sky

Kenny Loggins

Like bees without the honey
Or a sun that isn't sunny
Eat a cookie without milk
I wouldn't

And it seems that you can't wear
Just one shoe you need a pair
Even if I wore them
Which I don't, I couldn't

Underneath the same sky
Even though you're not close by
It feels just like
We're right beside each other

Even though we're far apart
Our friendship fills my heart
It's so good to know
We're under the same sky

Every kind of game takes two
I can't play without you
I guess I better put my ball away now
Even bouncing is not as funny

When you can't annoy your buddy
I'd fix things
If I just could figure out how

Underneath the same sky
Even though you're not close by
It feels just like
We're right beside each other

Even though we're far apart
Our friendship fills my heart
It's so good to know
We're under the same sky

Underneath the same sky
Even though you're not close by
It feels just like
We're right beside each other

Even though we're far apart
Our friendship fills my heart
It's so good to know
We're under the same

(Underneath the same sky)
So good to know we're under the same sky
(Underneath the same sky)
(Underneath the same sky)

Though my head is full of fluff
This much I know is true
It's lonely on my only

Without you
