

A Love Song

Kenny Rogers

Why do people cry
When they hear the word goodbye
In a love song?
Tears are sure to fall
When you know they gave it all
In a love song.
Somehow two lovers get a chance
At a beautiful romance
And you wish it could be you.

'Cause everybody's needing
What the singers all are singing
In a love song.

It can tear you apart
'Cause a word can break a heart
In a love song.
They say all the things you feel
And they make it sound so real
In a love song.
It seems that everything they say
Is said in such a way
That we believe it's true.

'Cause everybody's needing...

Each of us know
There's no guarantee
We'll ever find love.
And in the songs that we share
The heartache is there
To remind us.
New love brings a thrill
And we know it always will
In a love song.

Happiness can leave
But it helps if we believe
In a love song.
There's a part of you and me
In every memory
That tells us who we are.

And everybody's needing...
