## **Bed of Roses**

## **Kenny Rogers**

You're that one special woman I thought I'd never find With the strength to be gentle And the courage to be kind

Though it hasn't all been roses Still I know you understand One of these nights When we're sharing a dream

I'm gonna take you by the hand And lay you down on a bed of roses In that peaceful shelter Only love can provide I'll lay you down on a bed of roses And then I'll lay me down Right by your side.

There's no diamond on your finger Just a simple wedding band Since your knight in shining armor Is just an ordinary man.

Though I promised you a kingdom And we don't have all we planned One of these nights When we're making believe

I'm gonna take you by the hand ...
