

Evening Star

Kenny Rogers

1. If you never rode West of the Arizona border
You can turn the other way boy but you never get far
You be living a lie if you wanna see the wonders of the age
You must follow the evening star.

R: Evening star
Shine a little Heaven
On a stranger with no dream
Where you are.

2. You can see the loneliness I mean and if I gotta fight
I can never play somebody else's game
I can follow the evening star
Starlight, you never need somebody else's name
If you follow the evening star.

3. Have you ever known a sunset when the sky's on fire
How you end another day boy you've been searching too far
Like the desert I rode on any memory is lost in the restless
wind
I just lie beneath the evening star.

R:

4. Have you ever held a woman in the California moonlight
Put your money on a good night if you never been there
It's a sight for sore eyes if you wanna see the wonders of t
he age
Making love beneath the evening star.

R:

5. You can see the loneliness I mean and if I gotta fight
I will never play somebody else's game
I can follow the evening star
Starlight, you never need somebody else's name
If you follow the evening star...
