

Find a Little Grace

Kenny Rogers

I've put too many miles on the soles of my shoes
Running from place to place
Now it's time to stop and put down some roots
And find a little grace
I've danced with the devil beneath a pale moon
Confronted him face to face
Now I'm gonna dance to a different tune
And find a little grace

I've been too long at a fool's game
And it's about taken it's toll
I've paid a high price for small change
But it's not worth the price of my soul
I must admit, it's taken some time
To tame my restless ways
Now I'm gonna leave those struggles behind
And find a little grace

I'm gonna walk where the light always shines
And find a little grace
