I Wish I Could Say That

Kenny Rogers

Hello, it was good to get your call You haven't changed at all You're the same as far as I can tell No way, I see something in your face Someone's filled the empty space in your life Well, I'm glad to hear you're doing well.

I wish I could say that but I'd be lying I'm still not over the fact
That you stopped trying
It was easy for you to just let go
Of all we had
I wish I could say that.

What? Do you mean there's no one new It's my memory haunting you Now you want the things we had back then Inside there's a part of you That's still loving me and always will 'til the end and you'd like to see us try again.

I wish I could say that ...
