

If I Could Hold On to Love

Kenny Rogers

Just once in my life
If I could find someone, if once
The feeling was right
I'd never let her go.

I'd always be there
If I could have my chance to be
The only one
It just isn't fair.

If I could hold on to love
I'd never let it go
I'd keep it right next to my heart.
If I could hold her tonight
She'd never leave my side
If I could only hold on to love.

I'm searching my dreams
I'm trying to recognize that face,
Oh, who can it be?
She's calling out to me and now.

I'm running to her
But everytime I get this close
She vanishes
Ino the night.

If I could hold on to love
I'd never let it go
I'd keep it right next to my heart.
If I could hold her tonight
She'd never leave my side
If I could only hold on to love.

Is it ever come to pass
That I find a love that lasts
Or is that too much to ask?

If I could hold her tonight
She'd never leave my side
If I could only hold on to love
If I could only hold on to love.
