

It Turns Me Inside Out

Kenny Rogers

In a way I'm glad it's over
Even though it's gonna hurt me once you're gone
But I can learn to live without you
Give me time and I can make it on my own

'Cause lovin' you to me came easy
Now, losing you will change my life no doubt
In a way I'm glad it's over
In another way it turns me inside out

In a way I guess it's better
Even though there's nothing good about goodbye
But I know I couldn't hold you
Now, you've found your wings and you need room to fly

It's for sure I'm gonna miss you
But I guess that's what goodbye is all about
In a way I'm glad it's over
In another way it turns me inside out

On the one hand I know, I'll be better off once you're gone
But I find a lot of heartache on the other
And I can't say I'm looking forward to those nights I'll spend
alone
And I wonder will there ever be another

'Cause loving you to me came easy
Now, losing you will change my life no doubt
In a way I'm glad it's over
In another way it turns me inside out

In a way I'm glad it's over
In another way it turns me inside out
