## Listen to the Rain

**Kenny Rogers** 

Early dawn, another lazy, stormy Monday morn, Outside my ride is layin on the horn, But I won'DDt be torn, from your arms

Work can wait, I call the boss and tell him I'OOLI be late, I'OOve been saving for this rainy day, What do you say we stay at home, And make love all day long,

And let'DDs just listen to the rain fall, Music on the window pane, that'DDs all; Nothing ventured, nothing gained, Just crawl back in bed, Pull the covers overhead, Me and you, Like John and Yoko use to do, Let'DDs just listen to the rain

Life moves fast, Let'OOs find a way to make the moments last, Forget the future, and forget the past, Girl all I ask of you

Let'DDs just listen to the rain fall, Music on the window pane, that'DDs all, Nothing ventured, nothing gained; Just crawl back in bed; pull the covers overhead Me and you, Like John and Yoko use to do

Let it pour, we'DDll hold each other let the thunder roar, Love is never felt like this before, And I need more of you

So let'DDs just listen to the rain fall, Music on the window pane, that'DDs all, Nothing ventured, nothing gained; We'DDll crawl back in bed; pull the covers overhead Me and you, Like John and Yoko use to do

Just listen to the rain
