

Maybe In The End

Kenny Rogers

I'm sorry if I have misled you
I never meant to do you wrong
But I would like to find the answers
I've been searching for so very long, so long

I know you must be tired of chasing me blues
When happiness is so hard to find
We've been through so many things together
I can see it's hurting you inside

Maybe in the end it all works out
Or maybe in the end it's all wrong
But I know when it's over I'll still love you
We'll be together or I'll be alone

The years have passed and I've become so jaded
I'm leaving all my dreams behind
And now that we are here together
You're the only thing on my mind

Maybe in the end it all works out
Or maybe in the end it's all wrong
But I know when it's over I'll still love you
We'll be together or I'll be alone

Maybe in the end it all works out
Or maybe in the end it's all wrong
But I know when it's over I'll still love you
We'll be together or I'll be alone
