

## Maybe You Should Know

Kenny Rogers

Seems to me that weâve been friends forever  
We spend our time together as all good friends will do  
But the silence only lies, if you could read my eyes  
They hold another feeling I could show you.

Maybe you should know just how much I love you  
In my life thereâs no one else above you  
Maybe I should hope, you find out for yourself somehow  
Or maybe I should tell you now.

Maybe I should wait and take my chances  
A good dancer never dances, until he hears the cue  
But the orchestra is gone, theyâve left us all alone  
Thereâs no one here to tell me how to tell you:

Maybe you should know ....  
Maybe I should tell you  
Maybe I should tell you now.
