Only Once In A Lifetime

Kenny Rogers

You ask me if someday You'll hear me say goodbye I couldnt walk away If I tried.

Oh I know My feelings go unspoken sometimes

R: You can put all your tears away This time forever's here to stay I know a love like yours and mine Happens only once in a lifetime.

I hold you close to me And our love comes alive I never dreamed I could be so satisfied

If fate is kind Just once we find Such heaven in this life

R: You can put all your tears away...

I might see lightening strike twice in the same place But I know I'd never see Love like you've given me.

R: You can put all your tears away...
