

## She Rides Wild Horses

Kenny Rogers

It's just her and the band and the clean up men  
She's counting up her tips  
She did alright, she says goodnight

She drives home to a 3-room flat  
Checks her machine and she feeds the cat  
She's almost asleep before she turns out the lights.

In her dreams she rides wild horses  
And they carry her away on the wind  
And they never make a sound  
As they fly above the ground  
Tonight she rides wild horses again.

She's fallen in love a time or two  
Somehow all of her dreams fell through  
But she's strong, she carries on.

Her life ain't always gonna be this way  
She knows she's gonna shine someday  
But for now, she'll escape 'til the dawn.

In her dreams .....
