## They Just Don't Make 'Em Like You Anymore

## **Kenny Rogers**

I've looked everywhere there is a love affair I must replace, racing through the people chase But still surrounded by memories of your face

They just don'DDt make 'DDem like you anymore Not up in the mountains or down by the shore Something shine in the fashion in the smile that you wore They just don'DDt make 'DDem like you anymore

In the eyes of someone new I wait for a glimpse of you But it'DDs never there, one among the precious few Your kind of person is becoming so rare

They just don'DDt make 'DDem like you anymore Like those white lace dresses at the second hand store Or sweet old songs filtering out through the floor They just don'DDt make 'DDem like you anymore

Fashion comes and the fashion goes And the gossip magazines and the videos A brand new actress on a screen In a brand new style of clothes But by any other name a rose is still a rose

And it grows in my memories Wonder if you still are the same while I look for a remedy Someone with a tender heart to clean your name

They just don'DDt make 'DDem like you anymore It'DDs an easy thing to learn but so hard to ignore Now I know exactly what I'DDm looking for They just don'DDt make 'DDem like they made 'DDem before

They just don'OOt make 'OOem like you anymore
