

# We're Doin' Alright

Kenny Rogers

You must have been an angel once yourself  
You know how it feels  
The best things fall from the highest shelf  
And break up your heels.

We were in the middle of something  
We didn't understand  
Our hearts that were broken  
Are back in the mend.

We're doing alright, we're doing alright  
Now the heartache is over  
Over and done, and nobody wants  
But we're doing alright.

You need a little something sometimes  
But everybody does  
And everyday everywhere  
Something's changed.

It wasn't always this good  
Somedays were few with fame  
And in the heat of the night  
I call your name.

We're doing alright, we're doing alright  
Now the heartache is over  
Over and done, and nobody wants  
But we're doing alright.

Hearts beat alone just as well  
Now you're rolling home, I can tell...
