

You Made Me Feel Love

Kenny Rogers

I said: yes, I've been blessed
I couldn't begin to count the times I said,
Baby, do you know how good you made me feel
I hear you say you do
I know it's all because of you
That I have watched my life turned inside out,
Yes, and I have watched you became from one thing
I can't live without.

You made me feel love,
You made me feel love like
I never felt in love before...
You made me feel love
And you made me believe in love
Like I never thought (that) I could believe,
And you made me feel love
Like I never felt love before.

I said: yes, yes I knew
The night I was introduced to you
Darling, do you remember that night as well as I do
You closed your eyes and smiled
As we rode back to the time
When I touched your hand and
We floated all into space
And all those people down there
Looking up at us and saying:
Hey, how you get that feeling that way.

You made me feel love
You made me feel love like
I never felt in love before...
You made me feel love
And you made me believe in love
Like I never thought (that) I could believe,
And you made me feel love
Like I never felt love before...
