

# You're Not Asking Much

Kenny Rogers

You say you want to take me where I've never been  
You make me feel like I'm in heaven  
You say you want to know me just the way I am  
And hold me as close as you can

If that's what you're asking, baby, I am touched  
You don't need a reason to put your faith in love  
I know you wanna hear me say, "It's you I'll always love"  
If that's all you're asking, you're not asking much  
(If that's all it takes)

You want me to surrender the secrets of my soul  
And tell you all there ever is to know  
You want me to promise that you will always be  
The only one who watches over me

If that's what you're asking, baby, I am touched  
And you don't need a reason to put your faith in love  
I know you wanna hear me say, "It's you I'll always love"  
If that's all you're asking, you're not asking much  
(If that's all it takes)

You're the one who makes it easy to give  
You know I'm gonna love you as long as I live

If that's what you're asking, baby, I am touched  
You don't need a reason to put your faith in love  
I know you wanna hear me say, "It's you I'll always love"  
If that's all you're asking, you're not asking much  
(If that's all it takes)
