

# Believe

Kenny Wayne Shepherd

Take me down, down on you  
Make me drown, drown all around you  
Butterfly, fly to me  
Spread your wings, wrap them around me

Follow me and I will lead you on  
Trust in me and I won't do you wrong

Oh, when you've got no hope, you've given up, it's out of your hands  
I wish that I could show you how to understand  
That even when your eyes deceive  
Oh yeah, all you've gotta do is believe

Running out, out of time  
Out of sight, out of your mind  
Find the light, the light in you  
Let it shine, shine on through, through you

Open up your heart and let me in  
I will stand beside you till the end

Oh, when you've got no hope, you've given up, it's out of your hands  
I wish that I could show you how to understand  
That even when your eyes deceive  
Oh yeah, all you've gotta do is believe

Let me be the one, you can count on me  
I will be the one if you just believe  
Oh yeah  
Ooh-hoo, yeah yeah

Oh, when you've got no hope, you've given up, it's out of your hands  
I wish that I could show you how to understand  
That even when your eyes deceive  
Oh yeah, all you've gotta do is believe
