

Come On Over

Kenny Wayne Shepherd

Two lane is slick, black, heavy as the storm streaks down
Come on over baby
Voice on the radio, thunder clap drownin' out
Come on over baby
What has you feeling so trapped alone with your doubts

She says
You ain't broken, you're just bent like me
She says
I'll show you something that will set you free, set you free
She says
Howl at the wind, cry on the shoulder of the road
Or you can come on over, come on over baby

If you were a bridge yeah you'd be going up in flames
Come on over baby
It's like you're trying to outrun yesterday
Come on over baby
Tell me what's holding you back, what rattles your chains

She says
You ain't broken, you're just bent like me
She says
I'll show you something that will set you free, set you free
She says
Howl at the wind, cry on the shoulder of the road
Or you can come on over, come on over baby

She says
You ain't broken, you're just bent like me
She says
I'll show you something that will set you free, set you free
She says
Howl at the wind, cry on the shoulder of the road
Or you can come on over, come on over baby
