

# Honky Tonk

Kenny Wayne Shepherd

Well, I remember the sound since I was a child  
Beat of the drum like to drive me wild  
Sound was a commin' from across the track  
Went off over and I never came back

Yeah the preacher taught him --Daddy taught me--  
how to sing all the blues in a honky tonk key

Well I turn up the singer on a sad song  
Guitar man's got a Beale Street tone  
Girls up front baby all night long  
Oh what a night to come home alone

Yeah the preacher taught him --Daddy taught me--  
how to sing all the blues in a honky tonk key

Yeah the preacher taught him --Daddy taught me--  
how to sing all the blues in a honky tonk key
