

# Nothing But the Night

Kenny Wayne Shepherd

Nothing but the night  
Makes me feel alive  
Makes me wanna spread my wings and fly  
Something 'bout the moon  
Gets me in the mood  
For rolling on the river in a velvet sky

It's something that I can't explain  
It's falling on me like rain  
I'm out here all alone  
And I ain't ever known  
Nothing but the night

Ooh, I love it  
Makes me wanna move with you  
And all I need is only you and I  
And nothing but the night

Something 'bout the dark  
Cuts into my soul  
Makes me wanna lose control  
Makes me wanna  
Feel a little bit crazy  
Rub it up on you, baby  
Falling and flying, I'm living and dying for you

Ooh, I love it  
Makes me wanna move with you  
And all I need is only you and I  
And nothing but the night

It's something that I can't explain  
It's falling on me like rain  
Out here all alone  
I ain't ever known  
Nothing but the night

Ooh, I love it  
Makes me wanna move with you  
And all I need is only you and I  
And nothing but the night  
And nothing but the night  
Ooh...  
And nothing but the night  
And nothing but the night
