

Somehow, Somewhere, Someway

Kenny Wayne Shepherd

Now girl, I see you in my dreams
It happens every day and night now
You got me going to extremes
Don't seem to care what's wrong or right now
I'll make ya mine Someday
Somehow, Somewhere, Someway

You say I'm really not your kind
I know I look a little rough now
If I could give you everything, girl
Would it ever be enough now
I'll make you mine someday
Somehow, Somewhere, Someway

It makes me wonder what's goin' on baby,
When the night rolls in

It something happens that feels so strong and
And I just can't pretend, oh yeah

Oh don't you wonder what's, goin' on baby
When the night rolls in
It's something happens that, feels so strong and
And it will happen again So, you can turn and walk away,

But I know you would regret it,
If I ever had my way, yeah,
Do you think you could forget it,
It's gonna happen someday,
Somehow, Somewhere, Someway

I wanna have you someday,
Somehow, Somewhere, Someway

I'll make you mine someday
Somehow, Somewhere, Someway
