## Who's Gonna Catch You Now

## **Kenny Wayne Shepherd**

Every time you fell I was there to catch you Every time you called I picked up the phone I threw you a lifeline every time you started sinking Are you ready to do it alone?

Who's gonna go out and find you When you're lost out in the night? Who's gonna be the voice that tells you Everything's all right?

Who's gonna be the one to pick you up When you fall down?
Tell me who, who's gonna catch you now?

Every time you cried I was there to tell you

Every single tear will help you grow

I hope you will understand my silence will make you stronger

So I'm letting you do it alone

Who's gonna go out and find you When you're lost out in the night? Who's gonna be the voice that tells you Everything's all right?

Who's gonna be the one to pick you up When you fall down?
Tell me who, who's gonna catch you now?

I'll always love you and I hope you'll always know The best way to help you was to let you go

Who's gonna go out and find you When you're lost out in the night? Who's gonna be the voice that tells you Everything's all right?

Who's gonna be the one to pick you up When you fall down?
Tell me who, who's gonna catch you now?
