

# Wild Love

Kenny Wayne Shepherd

Lightening in a bottle  
Held it in my hand  
Pushing down the throttle  
I drink and try again  
baby I  
I just can  
Build a wall around me  
I won

No one makes me feel the way  
Feel the way you do  
No one else could make me say  
Say these things to you  
I feel something kind of dangerous  
I wish I knew what it was  
Babe let  
Wild love

Goin  
You  
Fist you took my sanity  
Now you want my pride  
Girl I wanna see you  
See you in the flesh  
Im out here on a wire, baby  
And they

No one makes me feel the way  
Feel the way you do  
No one else could make me say  
Say these things to you  
I feel something kind of dangerous  
I wish I knew what it was  
Babe let  
Wild love

It don  
But I just can

I don  
Or try to push you away  
But something  
And it

No one makes me feel the way  
Feel the way you do  
No one else could make me say  
Say these things to you  
I feel something kind of dangerous  
I wish I knew what it was  
Babe let  
Wild love  
Wild love
