

# Done With It

Kensington

So, now the best are right  
So, now the best are wrong  
Don't, don't, don't, don't you want it  
Don't, don't, don't don't you know

That when the blessed arise  
They'll be the last to fall

Don't, don't, don't, don't you want it

So you want me gone  
You want me gone but now  
You know we can't stop right here  
We can't stop right here  
So no, I won't be gone and out  
Oh yeah, you guessed it right there  
We can't stop right here now

Oh, I'm done with it

So now the best for last  
Don't want the rest to know  
Done, done, done what you wanted  
Done, done, done what you know

Now we're the last to rise  
And we're the last to go  
Don't, don't, don't, don't you want it?

So you want me gone  
You want me gone but now  
You know we can't stop right here  
We can't stop right here  
So no, I won't be gone and out  
Oh yeah, you guessed it right there  
We can't stop right here now

Not by a win you're in though  
Not by a win you're high  
Oh but again you ride  
And go, go, out of sight  
Not by a win you're in though  
Not by a win you're high  
Oh, yeah you guessed it right there  
We can't stop right here now

Oh, I'm done with it

You wanted all in  
You wanted it so

So you want me gone  
You want me gone but now  
You know we can't stop right here  
We can't stop right here  
So no, I won't be gone and out  
Oh yeah, you guessed it right there

We can't stop right here now

Not by a win you're in though

Not by a win you're high

Oh but again you ride

And go, go, out of sight

Not by a win you're in though

Not by a win you're high

Oh, yeah you guessed it right there

We can't stop right here now

Oh, I'm done with it
