

If You Were Here

Kent

Sleep, I don't need to sleep
I hide my fist behind me
Dream, I don't sleep I dream
My conscience lays beside me

If you were here, if you were here, if I was there
If you were here today, this day
If you were here, if you were here, if I was there
If you were here today, this day

Speak, I don't need to speak
You're satisfied with silence
Scream, I won't speak I'll scream
My conscience walks behind me

If you were here, if you were here, if I was there
If you were here today, this day
If you were here, if you were here, if I was there
If you were here today, this day, today

Sleep and all my energy
I waste on dream of silence

If you were here, if you were here, if I was there
If you were here today, this day
If you were here, if you were here, if I was there
If you were here today, this day, today
