

# Seasons

KenZiner

I didn't believe in the power of love  
I've never seen love at first sight  
I don't know how you ever found me  
I didn't know of this old misery  
I soon realized the connection was there  
Now I knew that this was despair

And we've been there before  
Through the seasons of strife

Visions of yesterday  
Mesmerized so far away  
Flashes of yesteryear  
The seasons soon disappear

I've seen...the seasons  
I've lived...the seasons

You are the keeper of my lost soul  
You have the way to make us whole  
I've called to you so many times  
I did not know where to try

And we've been there before  
Through the seasons of strife

Now I believe in the power of love  
Now I have seen love at first sight

I don't know how you ever found me  
I didn't know of this old misery  
I soon realized the connection was there  
Now I've seen this old despair

And we've been there before  
Through the seasons of strife

Visions of yesterday  
Mesmerized so far away  
Flashes of yesteryear  
The seasons soon disappear

I've seen...the seasons  
I've lived...the seasons

You are the keeper of my lost soul  
You have the way to make us whole  
I've called to you so many times  
All through the seasons of strife
