

## One Day Without

Keren Ann

One day without you  
Without you  
My love  
One day without you  
Without you  
My love

How I long for your skin  
'Cause my lips barely grin  
And the day must begin  
My love  
Can't imagine your face  
In a far hidden place  
Please be home before grace  
My love

One day without you  
Without you  
My love

There's a road far ahead  
And many things to be said  
For the young newly wed  
My love  
'Cause a day is like a year  
When you're no longer here  
I just wanna be near  
My love

How I long for your skin  
'Cause my lips barely grin  
And the day must begin  
My love  
Can't imagine your face  
In a far hidden place  
Please be home before grace  
My love

One day without you  
Without you  
My love
