

# All the Boys

Keri Hilson

[Intro]

Oooooo, yeah, oh oooo.  
You love me love me love me  
ohhh ahhh  
ooo

[Verse 1]

So long my love sick youngsters, goodbye my use to be friends.  
I remember each vacation, each day we wasted, it felt so different then.  
So long my casanovas, farewell to my long lost friends. I remember

all the kisses, the hits it misses, I never knew I love like this.

[Chorus]

After all the boys that I thought I loved before,  
I didn't know what love was, till you knocked on my door.  
After all the boys that I wished had love me more,  
I didn't know what love was, never had this before.  
Say you love me love me love me.  
You love me love me love.  
Didn't know what love was, until you love me love me love me.  
But yeah you love me love me love me, boy you love me love me love.  
Didn't know what love was till you knocked on my door.

[Verse 2]

So long my towering soldiers, reminisce about the boy cross town.  
He's still the wide eye genius, Hollywood dream said he'd never wanna be tied down.  
So long my high school teacher, damn I had a crush but I couldn't reach ya.  
Remember all the guys, they were never right, I'm so glad I found you this time.

[Chorus]

After all the boys that I thought I loved before,  
I didn't know what love was, till you knocked on my door.  
After all the boys that I wished had love me more,  
I didn't know what love was, never had this before.  
Say you love me love me love me.  
You love me love me love.  
Didn't know what love was, until you love me love me love me.  
But yeah you love me love me love me, boy you love me love me love.  
Didn't know what love was till you knocked on my door.

[Bridge]

Oh when I didn't know, I did not know, till you let me know.  
And I didn't see, I couldn't be this happy.  
And I never loved in the way that I do today.  
Oh I'll never be the same, since your love became my way.

[Chorus]

After all the boys that I thought I loved before,  
I didn't know what love was, till you knocked on my door.  
After all the boys that I wished had love me more,  
I didn't know what love was, never had this before.  
Say you love me love me love me.  
You love me love me love.  
Didn't know what love was, until you love me love me love me.

But yeah you love me love me love me, boy you love me love me love.  
Didn't know what love was till you knocked on my door.
