

# Slow Dance

Keri Hilson

Come here baby  
Sometimes, I just wanna dance witcha...  
Hold me like this  
Just rock with me

[Verse 1:]  
Put your arms around me boy  
I got somethin to show ya, tonight  
And ya know I need ya undivided attention baby (whooOooAaa)  
Ain't no otha girl can rock your world, like I

So, rewind  
Make this moment last forever babe  
It feels like your body's callin me

[Chorus:]  
But I don't want to come on too strong  
But somethin happens when we slow dance (when we slow dance)  
I try to be lady-like  
But I got you here tonight  
But somethin happens when we slow dance (when we slow dance)

[Verse 2:]  
Talkin with my fingertips (yea, yeaa)  
I got so much to say babe (words just get in the way baby, the way baby)  
Let's see can you read my hips  
Read between the lines (read)  
As we bump n grind  
Trust me it feels better from behind so one more time

So, rewind  
Make this moment last forever babe  
It feels like your body's callin me

[Chorus:]  
I don't want to come on too strong  
But somethin happens when we slow dance (when we slow dance)  
I try to be lady-like  
But I got you here tonight  
But somethin happens when we slow dance (when we slow dance)

Gotchu in my element  
Time to represent who you with  
The whole world's starin at the both of us  
And I'm givin you all my love

Gotchu in my element  
Time to represent who you with  
The whole world's starin at the both of us  
And I'm givin you all my love

This one's for the (dance floor)  
Strictly for the (dance floor) (4x)

Yea...

I don't want to come on too strong

But somethin happens when we slow dance (when we slow dance)  
I try to be lady-like  
But I got you here tonight  
But somethin happens when we slow dance (when we slow dance)

I like that one...  
Just rock with me...
