

Piece Of My Heart

Keri Noble

Driving down the highway saying goodbye to it all
In between the blues and greens we're following the call
That takes us so far away from summer's sunny days
You know I'm missing you already and I can still see your face

Sitting underneath the stars with a cold beer and old friends
Talking 'til the sun comes up and then we'd do it again
Well you've become a part of me that I never want to lose
Until we come back together you know I'll be missing you

I can hear us laughing
I remember every part
I've got everything we ever did
It's tattooed on my heart
But there's a colder wind coming in
And blowing us apart
Until the summer brings us back,
You know you got a piece of my heart

Watching your taillights fading out of my sight
Feeling like the sun just lost a little bit of its light
But you've left your memories to linger, new memories to start
'Til the summer brings us back, you know you got a piece of my heart
