

# Ghost Society

Kerion

Walking far from light  
Hidden in the night  
Away from your sight  
I go on my fight, go on my fight  
Looking for knowledge  
Lost in the ages  
This will be my pledge  
Yes my road is waged, my road is waged

Trapped in darkness  
My soul will fall into madness  
All that I know  
Must stay forever in the shadow

Qui nescit dissimulare, nescit regnare

[Chorus:]  
Changing the world into masquerade  
Where kings and pawns parade  
This ghost society  
Makes grow high its sad conspiracy

Living for power  
I'm the real master  
The secret keeper  
Danger awaits, danger awaits,  
All my devotion  
Leads to frustration  
Does my salvation  
Become damnation?

All things have changed  
I see the rise of technologies  
The final last breath  
Will sing to me sweet symphonies
